EXTRA-CURRICULAR

COLNE PRIMET ACADEMY

- At Colne Primet Academy, students can get involved in a huge range of exciting extra-curricular activities designed to inspire, challenge and support their personal growth.
- From board games, chess, music, art and drama to a wide variety of academic, creative and social clubs, there truly is something for everyone.
- Our PE department also runs sports clubs every lunchtime and most days after school, offering football, netball, basketball, badminton, rounders, cricket, rugby, athletics and more, with activities changing each half term to keep things fresh and fun.
- Students can also take on bigger challenges through opportunities like the Duke of Edinburgh's Bronze Award, where they build confidence, resilience and independence through volunteering, physical activity, new skills and an exciting expedition. With so many clubs and experiences available, every student has the chance to discover new interests, make friends and be part of something special.
